## WEPs GENDER ACTION PLAN • ERINHA AISBL

As a Women's Empowerment Principles (WEPs) signatory, you have taken an important step to advance gender equality in the workplace, marketplace, and the community. This WEPs Gender Action Plan Template brings you to the next phase of your WEPs journey.

A gender action plan is a road map for gender equality and women's empowerment. It could help your company embed gender equality into its business model (strategies, systems, governance, etc.) and should contain a succinct compilation of goals, indicators, and targets. The process of creating a gender action plan will allow you to strengthen and amplify your commitment and take steps to advance gender equality throughout your organization.

In completing this Template, we recommend that you also use the [WEPs self-assessment](#) to evaluate your company's gender equality performance across the workplace, marketplace, and community, and to identify gaps and opportunities for continuous improvement. We also encourage you to explore the proposed indicators in the [WEPs Transparency & Accountability Framework Reference Guide](#). See for additional information about the WEPs [here](#). Upon completion of the WEPs Gender Action Plan, you can provide a link to it on your [WEPs Company Profile](#) page.

Negative and diminished conceptions of women and girls are one of the greatest barriers for gender equality. Advertising is a powerful driver to change perceptions and impact social norms- portraying women and men in modern, authentic and multi-dimensional roles. Companies can also influence business partners through inclusive supply chain policies and standards of engagement.

Measurement and reporting

Transparency and accountability are required for companies to uphold their commitments to gender equality in the work-place, marketplace and community. Measuring and reporting mechanisms are crucial to monitor and track performance and progress. Business leaders and stakeholders agree that while not everything of value can be counted, it is difficult to manage what is not measured.
